Information COVID -19 (13)

To the entire community of Técnico.

Following the lifting of the state of emergency, on May 3rd, and the terms that were approved by the Council of Ministers on April 30th, as well as the recommendations and clarifications contained in the Information of the Office of the Minister of Science, Technology and Higher Education, of April 17th and 30th, begins today, May 4th, the implementation of the "Plan for the progressive lifting of containment measures at the IST", approved by the Governing Board of the IST on April 30, and which can be consulted in full on https://tecnico.ulisboa.pt/files/2020/05/plano-de-desconfinamento-30-04.pdf

This plan aims to initiate the re-establishment of the on-site activities on IST campuses, in a safe, responsible and phased manner, being therefore conditioned by two fundamental principles:
(1) Optimize the IST activity, ensuring the health of all its community,
(2) To give to the entire IST community the security and peace of mind that is so necessary at this time.

The plan is therefore divided into four phases (red, yellow, green and blue), with the red phase beginning today, May the 4th, with the preparation of the campuses for a gradual return to on-site activities, according to the summary table of actions to be implemented in the coming weeks (https://tecnico.ulisboa.pt/files/2020/05/plano-de-desconfinamento-resumo-30-04.pdf).

From now on, this plan is constantly being updated according to the evolution of the pandemic situation. As such, the IST Management Board will not hesitate to reverse decisions, especially if sanitary conditions degrade beyond what was foreseen, which we hope will not happen.

I whish you all good health and an excellent week of work.

Rogério Colaço

President of IST
