

Information COVID -19 (25)

To all the IST Community,

Following my previous information COVID19 (24), I convened yesterday the IST Council of Departments and Cross-Sectional Structures, where all IST Departmental Presidents are present.

This council:

- a) was of the unanimous opinion that the academic school calendar 20/21, and in particular the current evaluation period, should not be changed, given the irreparable damage that such a decision would bring to IST students, to the functioning of the School in its academic component and, plausibly, to the very beginning of the school year of 21/22;
- b) was also of the opinion, in the majority, that, given the situation the country is going through, the recommendations of the governmental authorities and of the University of Lisbon, and of the health authorities, there are no conditions to carry out any type of presential evaluations during the current evaluation period.

I also listened to the other organs of the School, namely the Executive Committees of the Pedagogical Council and the Scientific Council and the Management Council, which share the same opinion.

Thus I determine that:

1. the current academic school calendar 20/21 is maintained;
2. the evaluation methods of all the curricular units of the IST, during this evaluation period, should be changed to non-presential methods, namely by using oral, whenever justified.

The occasional adjustments, of a few days, that may have to exist on the date of evaluation of the limited number of curricular units that, namely due to their size, cannot adapt the evaluation method until the date of the exam already scheduled, will be treated directly between the faculty and student, in articulation with the department presidencies and the pedagogical council.

Rogério Colaço
President of IST
