

Information COVID -19 (34)

To the entire IST community,

The worsening of the pandemic situation in the Lisbon region during the current evaluation period at IST requires a reinforcement of the testing programme for the whole IST community.

Therefore, as of Monday 28 June, testing will be available at IST on any day of the week: Mondays, Wednesdays and Fridays at Alameda and Tuesdays and Thursdays at Taguspark campuses.

It is recommended that students and teachers schedule a quick test at least 72 hours before any evaluation moment. To do so, all you need to do is reply to the scheduling link that you will receive during the next few days.

Following this increase, the government also determined, that the limitations on circulation in the metropolitan area of Lisbon during weekends would be increased. It should be clarified that this increase in restrictions does not apply to school activities. As such, teachers and students, within the scope of school activities, are excluded from these traffic restrictions.

Finally, from next Monday, 21st June, the opening hours and the number of rooms allocated to 24h study spaces will be extended, in order to reduce the occupational density of the campuses during assessments, and in the coming days specific information will be sent to all students, namely through the IST social networks.

Stay protected, stay healthy!

Rogério Colaço
President of IST
